

Participation in a synchronous hybrid setting - as an online participant

If you follow these aspects, nothing stands in the way of your online participation in a synchronous hybrid setting

What you need:

Stable internet connection to ensure a good connectivity

Quiet environment to be able to stay concentrated

Headset for better audability

Use video to show you being present and attentive

Device to use the shared online platforms

What we recommend additionally:

Second screen or device for an easier use of different tools

Pen and paper for handwritten notes

PC mouse for better range of motion

External camera for a better quality and perspective of you

Have we sparked your interest with our OER on hybrid settings? Here you can find more:
