# 5 Würzburg: University and city

## Julius-Maximilian-University Würzburg

The Julius Maximilian University of Würzburg (JMU), founded in 1402, is one of the universities in the German-speaking world that have a long and rich tradition. Numerous famous scholars and scientists have made their mark here, such as Carl Siebold, Rudolf Virchow, and Franz Brentano. So far, 14 Nobel laureates have conducted their research here, including Wilhelm Conrad Röntgen, who discovered X-rays at Würzburg. In 1985, the physicist Klaus von Klitzing received this distinction for his discovery of the quantum Hall effect. Harald zur Hausen was given the Nobel Prize in Medicine in 2008 for discovering that viruses trigger cervical cancer. In addition, ten scientists from the University of Würzburg have received a Leibniz Prize – the most prestigious German research prize.

The Julius Maximilian University is constantly expanding: Since the 1960s, it has been spreading out onto a hill on the eastern edge of the city, called Hubland. A green campus has sprung up there, bringing together large sections of Science and Humanities. This is also home to the University Library, the Mensa dining hall, the Hubland Campus and the University Sports Facilities. In 2011, this area was expanded by a further 39 hectares, offering a huge amount of space for new institute premises and seminar rooms.

More than 28,000 students, including some 2,100 young people from abroad, are registered with ten faculties. These can be divided into four main areas: Humanities, Law and Economics, Life Sciences, and Natural Sciences and Technology. The university and its hospital provide employment for 10,000 people. Around 4,000 are on the academic staff, more than 400 as professors.

## Study in Würzburg

The University of Würzburg offers more than 200 study programmes. In addition to this, there are parallel courses and postgraduate courses in Experimental Medicine, European Law, and other study fields. The university also offers some further education courses, such as Psychological Psychotherapy, Purchasing and Supply Management. The Center for Continuing Education coordinates the part-time educational courses for professionals, which are expanded continuously. As an important element in the promotion of young talent, the Julius Maximilian University offers doctoral degrees in all study areas, even in interdisciplinary fields, with intensive tutoring and supplementary multidisciplinary courses. The University of Würzburg Graduate Schools for doctoral students from all disciplines were set up for this purpose.

## Research

The university boasts numerous collaborative research centers, graduate schools, and research groups, which are funded by the German Research Foundation (DFG). These top-level research facilities have been secured for Würzburg despite tough competition from other higher education institutions. The Julius Maximilian University is among the most successful German institutions of higher education. This can be attributed to its high-caliber scholars and scientists as well as its interdisciplinary research centers, which have been set up in the fields of Medicine, Science, and Humanities. The university was a pioneer in creating these centers, starting the process as early as the 1990s.

## Cosmopolitan

The Julius Maximilian University maintains numerous partnerships with universities in Africa, America, Asia, Australia, and Europe, and strengthens these relationships continuously. In addition, there are considerable relations at the level of institutes and departments. Internationalization is a top priority for the University of Würzburg.

# 5 Würzburg: University and city

## The city of Würzburg

A lot of student activities take place alongside the River Main with its promenades, meadows, and beer gardens: discovering the music and culture of our neighboring continent on the Main meadows during Europe's biggest Africa festival, walking barefoot in the sand at the city beach, or enjoying concerts and theater performances on a floating stage during the Würzburg Docks Festival – all this and more is on offer in Würzburg. Another popular event is the Mozart Festival, where “Serenade No. 13” is performed in a relaxed atmosphere in the Court Garden of the Residence. The distances within Würzburg city center can be covered easily on foot. Sporty people can reach all destinations by bicycle.

There is no lack of sports options in the city; there are cycling, running and Inline skating routes, leading along the River Main or through the vineyards. The university offers a broad spectrum of sports activities, ranging from basketball to yoga.

Photos: JMU Würzburg

The university also culturally benefits the city and the wider region: concerts by the Institute of Music Research or exhibitions in the university's museums enrich the cultural scene. For the general public, the university organizes lectures, readings, and other public events.

In addition, there are laboratories for school pupils, a children's university, a school pupils' university, and study programs for senior citizens. All these events combine with other cultural offerings and leisure facilities in Würzburg – theaters, concerts, open-air festivals, and wine festivals – to create an attractive environment in which to live and work.
